

JAMES M. BOLIN

James M. Bolin is a Senior Executive Consultant for Long International, and has over 25 years experience in all aspects of project and construction management, pre-construction planning, and project cost/schedule controls. His qualifications include claims and change order analysis and resolution, preparation of fixed-cost proposals and budget baseline planning, site management and coordination, prime and subcontract development and administration, materials expediting and procurement, and critical path method (CPM) delay analysis, schedule development, progressing and reporting. This diverse expertise has been obtained through involvement on numerous project types, including: oil production facilities, pipelines, pump stations, water and wastewater treatment plants, mineral processing facilities, water storage, hydroelectric plants, hospital/medical, transit, airports, communications, and environmental remediation. The value of these

projects has ranged from US\$50,000 to US\$360 million.

Through his proven experience in working for management consulting, engineering and construction companies, Mr. Bolin provides clients with superior analytical and problem solving skills that are effective in mitigating or resolving construction performance and contract related issues.
