

CURTIS W. FOSTER

Mr. Foster, a Principal with Long International, has a background that spans over 30 years of involvement in design, construction, and dispute resolution on over US\$ 5 billion of projects. This experience includes process/industrial, power, environmental, commercial, and transportation projects. He is skilled in the areas of contract management, cost management, estimating, scheduling, earned value performance measurement, and field engineering. He has had a significant role in the development of integrated project management procedures for various firms involved in the design and construction of facilities. His claim-related efforts include analyses of cost (estimated, bid, and actual), schedule (delay and acceleration), and disruption (labor inefficiency and productivity) for a wide range of projects in the U.S. and internationally.

Mr. Foster has significant experience in management, design, and field engineering on marine petroleum and power projects, including offshore platforms (for oil collection, separation, storage, and pumping), pipelines, and receiving/export facilities. His experience with power projects includes gas-fired combined-cycle cogeneration facilities, waste-burning facilities, and other facilities burning various fuels. A significant amount of his project experience was at various locations around the world. Mr. Foster also has hands-on project management experience on commercial projects, including hospitals and mid-rise condominiums. His duties on these projects included contract administration (including change order management, schedule review, and estimating), and field inspection to ensure conformance with design documents.

Mr. Foster has broad experience in project management, project control (estimating, scheduling, and cost engineering), and engineering (field and project) in various industries. This extensive experience is utilized to the benefit of his client on both dispute-related assignments and on project management consulting engagements.

EDUCATION

Georgia Institute of Technology – Bachelor of Civil Engineering (1979)

PROFESSIONAL AFFILIATIONS

American Society of Civil Engineers

Association for the Advancement of Cost Engineering International
